ABOUT US SHINAL COMPANY

Shinal is a multi-disciplinary company, with a wide range of investment opportunities in the general trade sector. Import and export is one of the most important services we provide to our customers. We export and import from and to all countries of the world where we offer advantages that meet the requirements of customers. The company is working hard to be the link to promote products abroad and contribute to pushing the wheel of export and serve the national economy and import what the market needs according to an extensive feasibility study working on the variety of exhibits and provided high quality and reasonable prices make the competition a powerful way to serve our customers as we import the finest items in Various materials required by the market around the world in addition to the import of

all materials and raw materials for any product in the world to us and others and all stages of import and all stages of export from the beginning of the material to be imported or exported and the completion and work of all stages In this context, we offer our customers integrated marketing solutions that add value to their activities and give them competitive strength that exceeds our customers' expectations continuously, relying on a huge database and our weaponry is the accumulated knowledge and experience. Our armament and success comes not from floundering, but from the planning and knowledge, we provide our services at the lowest cost without increasing or changing prices and our services allow all producers to open new markets for products.

SHINAL

OUR MISSION

We always strive to satisfy our customers by providing them with innovative and effective services and solutions that meet their increasing needs by providing a package of high-quality integrated solutions by committing to teamwork as we look forward to joint and integrated work, especially in the field of providing the needs of companies producing crude oil, power stations and energy sources And provide it with the necessary oil derivatives to operate it.

ENVIRONMENTAL HEALTH & SAFETY

Shinal Construction Oil & Gas Services Ltd (SHINAL) expresses its corporate responsibility and commitment to promoting ourselves as healthy, safe, and environmentally friendly. We care about the world in which we live, and work tirelessly to extend our care to our people and our sites. Our company's achievements are made possible by preserving and developing human and physical resources, and by reducing costs and liabilities. We have adopted a proactive Health, Safety, and Environment Plan by identifying work place hazards and reducing inherent risks to manageable levels, thereby avoiding accidents, liabilities, and consequential costs resulting from accidents.

QUALITY MANAGEMENT

Shinal Construction Oil & Gas Services Ltd (SHINAL) is committed to providing total customer satisfaction through excellent management and continuous improvement of our products and services. We aim to deliver our services efficiently and effectively, exceeding industry standards. Shinal ensures that all employees are properly trained, equipped, and motivated to serve our customers in accordance with the highest level of professionalism. Our team's combined years of hands-on industry experience makes us the top choice for high quality services. We are committed to quality, and the quality of our work speaks for itself.

TRANSPORTATION

We deliver a broad range of oil products throughout the KRG. With our fleet of vehicles ensuring unbroken supply of high-quality products all around the year. It also provides services for the transport of oil and gas for public and private companies, through the complete management of transport operations of oil and gas including tankers and transport vehicles, maintenance and operation. We have tankers with various capacities in a facility that can accommodate up to equip us to deliver your fuel requirements of any amount. Our expertise in the oil sector in krg, which has been catering to the varying demand for a significant number of customers for many years, enable us to execute the most efficient and timely oil transportation service.

DIESEL

A desire to achieve a greater share of the market and to provide a better service for our customers, with excellent service & quality products. Our low Sulfur Diesel Fuel follows the latest MNR requirements in environmental and quality standards. Which is sourced on the international diesel wholesale market. As one of the diesel fuel suppliers in the KRG, we cater to various industrial and business needs in the region. Diesel gas oil better's the performance level of multiple engines and industrial applications and increases the output of the overall product. We strive to provide Premium Quality, Low Sulphur Automotive Diesel Fuel for High-Speed Diesel Powered Engines, Generator Sets and Other Industrial Applications, Which Ensures High Grade Performance Levels. Provides Adequate Lubrication of Fuel Pump and Injectors and Maximum Corrosion Protection.

LPG

The process of supplying liquefied gas (LPG) requires special tanks that have a high degree of safety during loading, unloading and transportation. Liquefied gas (LPG) fields are available in the Kurmor fields in Chamchamal Area in Kirkuk Governorate which is produced by UAE Company – Dana Gas; and our desire to distribute energy sources and find solutions for our customers. We have supplied the North Gas filling Plants (Stations) in Duhok Governorate which has more than 30 filling factories of (LPG) to serve the citizen of Governorate

GASOLINE

We always strive to satisfy our customers by providing them with innovative and effective services and solutions that meet their increasing needs by providing a package of high-quality integrated solutions by committing to teamwork as we look forward to joint and integrated work, especially in the field of providing the needs of companies producing crude oil, power stations and energy sources and provide it with the necessary oil derivatives to operate it.

The features of this type of plant are accuracy in results, and control the quality of the asphalt mix In terms of controlling the temperature of the mixture and accuracy in the application of the equation of blending, where it is controlled by an intelligent computer inside the control room. Also the plant is managing by a group of top-notch engineers and teams which have a modern experience industrial. Our plant has processed a number of projects since the beginning of its establishment.

BUILDING

We specialize in complex and prestigious construction and infrastructure projects buildings and roads, we have also contributed oil & gas projects. Our established contacts in the region with a highly skilled and dedicated team, also with high innovative methods and an exacting standard for completion granted earned us a competitive edge well recognized in the constructions fields. As well we have exacting HSE and sustainability standards and the health and safety of both our employees and the general public is given utmost priority. Longstanding relationships with our clients have played a significant role in providing outstanding construction contracting services to companies and government agencies across the Duhok governorate. With our continued commitment to development and change, we look forward to the future and all the challenges and opportunities that we will face.

DESIGNING FOR QUALITY

Shinal Road Contracting L.T.D. (SHINAL), the quality of our services and products is a major factor in our success. We understand that clients and customers begin to consider a provider's service features well before their decisions are made. SHINAL's role in the process is to facilitate a deeper understanding of the design process, and to relay the needs of clients, consultants, contractors, and subcontractors to engineers, technicians, and staff at every level. We believe in transparency and promote an active acquisition of knowledge.

EMPHASIS ON QUALITY

Shinal Road Contracting L.T.D. (SHINAL) asphalt products comply with international standards of the KRG's Ministry of Ministry of Construction and Industry. Our emphasis on quality is clear in everything we do, from our workmanship to our reliable delivery times. SHINAL's qualified QA/QC and material engineers, as well as our highly skilled lab technicians and lab assistant's work tirelessly to maintain our commitment to providing quality products, in accordance with the Quality Management System (ISO 9001:2008).

The quality of our services begins with the sourcing of raw materials, and continues through the design mixing, manufacturing, transporting, placing, and compacting, and all the way to the project's final stages. Staff at every level is expected to consider the finest details in creating environmentally friendly solutions. Our philosophy is based in upholding the highest quality service for all types of asphalt supplies, in order to meet the requisite design mix through the various stages of a project.

SHINAL

LIVE THE LATIN TASTE & TASTE THE LATIN LIFE!!!

SHINAL COMPANY FOR CONSTRUCTION, OIL AND GAS SERVICES LTD

in compliance to the founders wish of the company to contribute to the process of reconstruction of Iraq in general and Kurdistan in particular, have they set up the company (Shinal Contracting and General Trading) in the year 2006 with a capital of 500 million Iraqi dinars, and is considered Shinal now of the leading companies in the field of general contracting operating in the Kurdistan Region of Iraq, the degree classification at the Ministry of planning in the Government of the Territory is the (first class).

Shinal is a multi-disciplinary company, with a wide range of investment opportunities in the general trade sector. Import and export is one of the most important services we provide to our customers. We export and import from and to all countries of the world where we offer advantages that meet the requirements of customers. The company is working hard to be the link to promote products abroad and contribute to pushing the wheel of export and serve the national economy and import what the market needs according to an extensive feasibility study working on the variety of exhibits and provided high quality and reasonable prices make the competition a powerful way to serve our customers as we import the finest items in Various materials required by the market around the world in addition to the import of all materials and raw materials for any product in the world to us and others and all stages of import and all stages of export from the beginning of the material to be imported or exported and the completion and work of all stages In this context, we offer our customers integrated marketing solutions that add value to their activities and give them competitive strength that exceeds our customers' expectations continuously, relying on a huge database and our weaponry is the accumulated knowledge and experience. Our armament and success comes not from floundering, but from the planning and knowledge, we provide our

services at the lowest cost without increasing or changing prices and our services allow all producers to open new markets for products. We have contributed in the construction sector and projects – tenders – in addition to the processing and supply ministries and government departments in each of the provinces (Erbil, Duhok) with the necessary resources and necessary in the reconstruction process, we have proven through our experience in the field of contracting and during the short period of time our high-achieving and implementing projects entrusted to us technical specifications and high-tech and as fully as possible, and that we have the great interest and confidence in both the public and private sectors.

The company is characterized by (Shinal) adhering to the permanent pace with the progress and the use of all that is new in the world of contracting for the completion of projects the image of modern possible and to achieve the welfare of the client and ensures his consent, which we aspire and strive to always.

Our company has been managed during the short period of time of the creation of three plants for the production of asphalt:

1 – (LabShinal2) of the type (AMMANN) model of German origin (2013) with all accessories.

2 – (LabShinal3) of the type (AMMANN) German origin model (2014) with all accessories.

As well as we were able to enter the two laboratories, one for industry Emulsion material, and the second to add material (polymer) to the asphalt, and is the first time to use this new technology to the level in Iraq and the region.

In addition to what we have mentioned above, the company also has a number of mechanisms (as shown in the table mechanisms) with technical staff specialized brushes asphalt and a number of Finishers and Rollers laser equipped with the latest technologies.
